Discover majestic temples, elephants, authentic food, lush forests, ancient ruins and much more on this once in a lifetime, insider's journey to Thailand.

You will arrive in Bangkok, the city that never sleeps, to begin your adventure. Over three days, we will introduce you to the sights and sounds, and of course tastes, that are at the heart of this exciting city. From Chinatown and Little India, to night markets, and from cooking classes to exploring this multi-cultural capital on foot and by traditional tuk-tuk. You will be fully immersed in its buzzing day and nightlife - a juxtaposition of modernity and tradition.

We will then leave the glitzy skyscrapers behind and transfer you south to Hua Hin offering a slower, more refined pace ideal for relaxation and wellness. This beach resort has been a favourite holiday destination for Thai nobility and the upper classes since the 1920s, when King Prajadhipok transformed it from a quiet fishing village to a royal resort with its many temples, caves and mountains, floating market and powdery sand beaches you will indulge in local Thai specialities and of course the freshest seafood. Activities will include beach and forest yoga with Kristina Mills, a traditional wooden boat sunset cruise, cooking class with local chefs, a waterfall jungle trek and elephant encounter, traditional massage, wine tasting with lunch at a local vineyard and so much more! Join us on this incredible journey to Thailand in 2027!
